

## Sprint

Sprint's new 4G LTE Plus network is built from the ground up for faster speeds, improved coverage, and better in-building penetration. Sprint's blazing fast data speeds enable you to email, browse, surf, download, stream and share files FASTER than on standard connections.

If you are with another carrier, Sprint will help you determine the best plan and the best time to switch.

**Benefits Include:**

- 19% discount on most rate plans
- 25% off select Sprint accessories
- Custom rate plans for voice and text available 2
- 8% discount on 3G/4G data solution plans mi-fi and hot spot devices
- Fleet Management Solutions

Learn more about how Sprint can help improve operational efficiency and make your business more money; with solutions such as mobile security software, fleet and mobile workforce management, paperless forms, professional email and collaboration software, worker safety, and more.
