

The Office Connection

The Office Connection, incorporated in July 1982, is proud to be woman owned and certified by the Michigan Minority Supplier Development Council. We provide a huge selection office supplies, janitorial items and medical supplies to customers throughout the United States. Our small order capability allows us to work with the home child care centers as well as large multi-location facilities.

Although our programs are national in scope, as a local dealer, we are committed to serving our customers with influential programs that are tailored to their needs. Our trained account executives can provide custom programs and our inside sales and support staff are very knowledgeable and responsive to customer needs.

We are fully integrated, computerized, automated, and affiliated with 47 regional distribution centers across the country. We have access to \$500 million of product inventory; 7 million square feet of warehouse space; 70,000 items for next day delivery across the country; 99.7 percent order accuracy ratio and a 99.0 percent order fill rate.

At TOC we want raving fans, not just satisfied customers.
